PRINT DESIGN

Print Design as crisp and modern as a website

WEB CREATE

Sometimes a piece of paper says more than 1000 websites

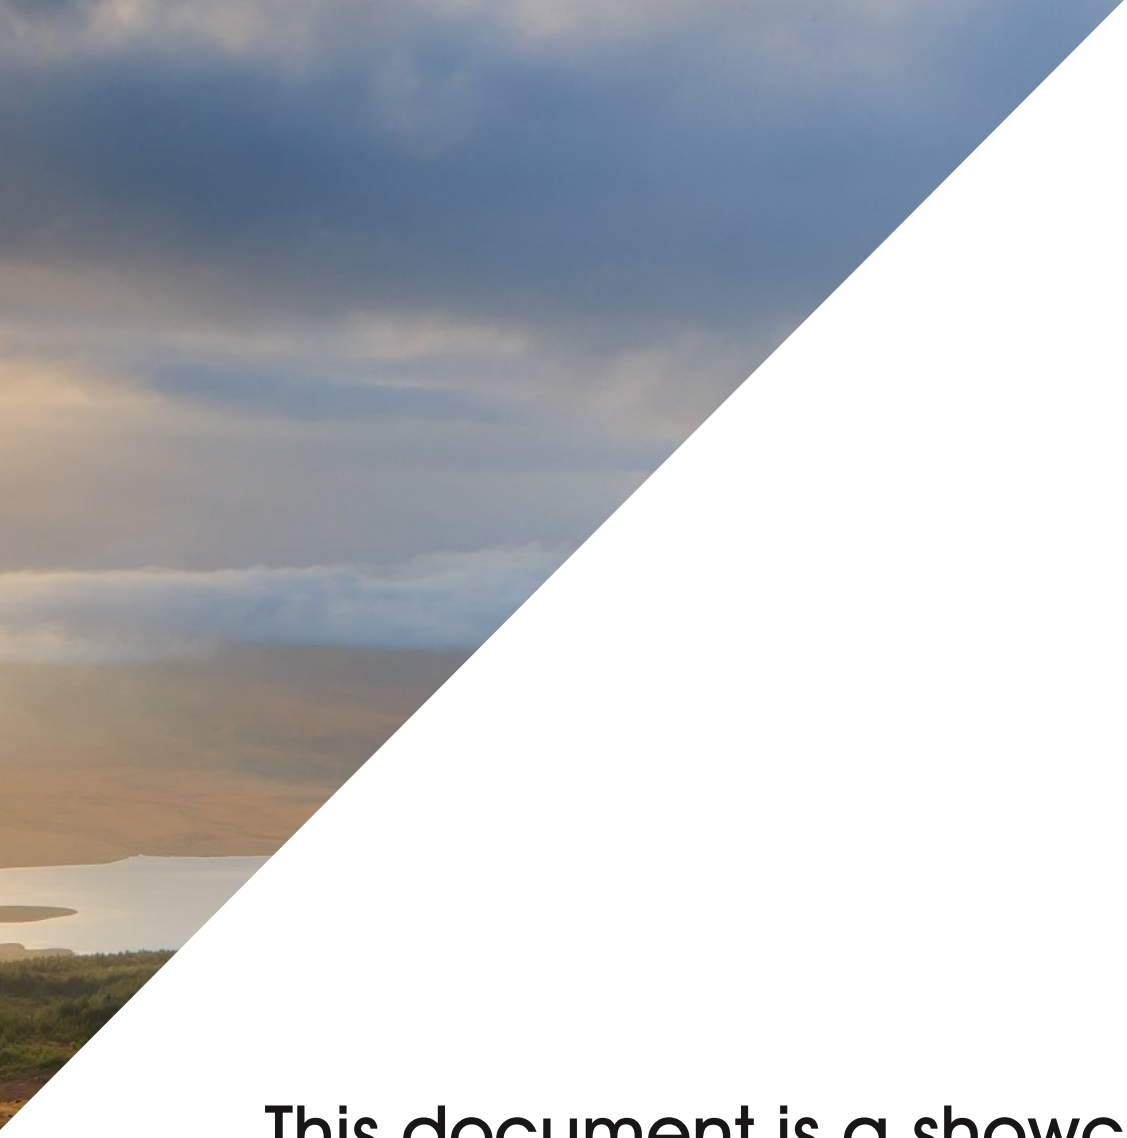
The printed word has been with us for centuries and will be for many more. It is so much more than just a convenience.

To hold a book in your hand and turn over each page, to pull a vinyl record out of his uniquely styled sleeve or to present a client with your glossy business card adds a pleasant haptic and visual sensation to the raw information.

It's not about us!

Beauty is in the eye of the beholder. That's why we create designs for you and not for us. If you come to us with an idea, we make that happen.

If you already have an existing corporate design, that's what we work with.



This document is a showcase

Because we follow the wishes, ideas and requirements of our customers, not all of the works we have done represent the full spectrum of our design capabillities. That's why we have created this showcase.

Fot that very reason every page of it looks a bit different. Each double page represents a different design and layout, so you get an impression of the variety of styles we have to offer. To avoid too much of a hard break from page to page, we stuck with the same typography and colour scheme though.
